

AHMED GAMAL FAROUK

Front-End & Cross-Platform Mobile Developer

✉ ahmedgamalfarouk0@gmail.com ☎ +20 102 351 0831 📍 Cairo, Egypt

Professional Summary

Results-driven Front-End and Cross-Platform Mobile Developer with proven expertise in Flutter, Dart, React, JavaScript, TypeScript. Skilled in building responsive, cross-platform applications with strong knowledge of state management, RESTful APIs, Firebase. Experienced in Agile/Scrum environments, collaborating with designers, product owners, and backend developers to deliver scalable, high-performance, and user-friendly solutions. Solid foundation in understanding of UI/UX principles, component-based architecture, and performance optimization. Committed to writing clean, maintainable code, implementing CI/CD pipelines, and leveraging Git, GitHub, and version control best practices to ensure seamless delivery of innovative products.

Work Experience

Front-End Developer, DoMS 01/2026
Angular front end developer

Front-End and Cross-Platform Mobile Development, 03/2025 – 08/2025
Information Technology Institute (ITI) – Intensive Code Camp (ICC)

- Built multiple cross-platform mobile applications using Flutter & React Native following modern UI/UX and clean architecture principles.
- Worked with Agile methodologies, participating in sprint planning, task decomposition, and peer code reviews.
- Integrated REST APIs & Firebase services.
- Applied Git workflows (feature branching, pull requests) and CI/CD concepts to ensure maintainable delivery.

Education

Bachelor of Computer Science, Future Academy – Faculty of Computer Science 09/2019 – 07/2023
GPA: 3.26/4.0

Technical Skills

Programming Languages Dart, Java, JavaScript, TypeScript, SQL, HTML, CSS	Frameworks & Technologies Flutter, React, Ract Native
Databases & Backend Firebase, SQLite, SQL, REST APIs	Development Tools Git, GitHub, VS Code, Cursor, Android Studio, Figma, CI/CD
Soft Skills Communication, Leadership, Critical Thinking, Teamwork, Problem-Solving	

Publications

A Systematic Literature Review of Optimization Algorithms for The University Course Timetabling Problem, Springer 01/12/2024

This systematic review is intended to help summarize most recent findings and identify relevant research regarding UCTP as a popular optimization problem within the scientific community.

Projects

Eshtry Menny (Flutter + SQLite)

A shopping & e-commerce app featuring user authentication, cart system, product management, SQLite local persistence, and Bloc for state management.

Social Media App (Flutter + Firebase)

A full social platform with profile management, posts, likes, comments, and Firebase Authentication, Firestore, and Storage.

Circle-Mobile (React Native + Firebase)

A mobile version of an event planing platform supporting authentication, real-time features, and channel-based messaging.

Movie Land (React Native)

Movie explorer app with API integration, category filtering, and favorites system.

Cinema Flux (React)

A futuristic, sleek interface movies website built with React, Redux Toolkit, and Vite

Circle (React + Firebase)

A social Event planing app designed to combat social drift by reducing the friction of planning group activities using React, Tailwind CSS, Firebase

Orderly (React + Firebase)

streamline and manage group/shared orders. Utilized Firebase Firestore
